Skills

Programming & Databases: Python, SQL, Java, MySQL, DBMS
BI & Data Visualization: Power BI, Advanced Excel, Data Storytelling
Data & Analytics: Data Analysis, Data Cleaning, Data Modeling, Exploratory Data Analysis (EDA)
Engineering & Core Analysis: Data Structures and Algorithms, OOPS, Requirements Analysis, SDLC

Projects

NETFLIX CONTENT ANALYSIS – Python, Pandas, Matplotlib, Plotly [GitHub Link]

- Cleaned and preprocessed a Netflix dataset containing 8,790 records using Python and Pandas, handling missing values and duplicate records to prepare analysis-ready data.
- Performed exploratory data analysis on content distribution, country-wise production, release-year trends, and ratings; found that Movies accounted for 69.69% of the dataset and visualized insights using Matplotlib and Plotly.

CUSTOMER SHOPPING BEHAVIOR ANALYSIS – Python, PostgreSQL, SQL, Power BI, Data Visualization [GitHub Link]

- Built an end-to-end data pipeline using Python and Pandas for data cleaning and EDA; migrated processed datasets into PostgreSQL for structured customer segmentation and behavioral analysis across 3,900 customer records.
- Developed an interactive Power BI dashboard featuring core KPIs and customer profiles; translated SQL analysis into an analytical report and a Gamma business presentation to communicate actionable insights to stakeholders.

DATA VISUALIZATION ON HEART DISEASE DATASET – Python, Pandas, Matplotlib [GitHub Link]

- Analyzed the UCI Heart Disease dataset to identify correlations between patient attributes and disease likelihood.
- Designed and developed interactive visualizations (bar charts, heatmaps, pair plots) to uncover hidden patterns in the data.
- Applied data pre-processing and cleaning techniques to ensure accuracy and consistency of results.

Experience

CARS24 Aug 2025 – Sep 2025
Software Engineer Intern India

- Developed client-facing features and managed backend data workflows using Node.js and MongoDB; optimized database query structures to reduce log-retrieval time.
- Analyzed system error logs and user onboarding metrics during authentication workflow integration to enhance platform reliability.

PlanetSpark (EdTech) Jan 2026 – Jul 2026
Business Development Counsellor India

- Managed end-to-end customer onboarding analytics, tracking weekly interaction data and metrics to assess concern resolution rates.
- Gathered business and user requirements through regular communication, translating customer feedback into actionable solutions.

Education

Dr. A.P.J. Abdul Kalam Technical University, Lucknow, Uttar Pradesh[Link] Sept 2022 – Jul 2026
Bachelor of Technology – Computer Science & Engineering CGPA: 8.23/10

Certifications

Python for Data Science, AI and Dev – Coursera (IBM)[]
Google Project Management – Coursera 2024[]
Introduction to Business Analysis – Coursera (IBM)
5-Star Badge – HackerRank

Leadership & Activities

Senior Coordinator – Byte Technical Club 2023-26
Head Coordinator – Induction Programme 2023
Vice President – Literary Society 2023-26
Coordinator – Techno-Cultural Fest 2024-26
